Which focus should the H S I have:

- Differences between high and low risk populations
- Personalized therapeutics advances in H S I
- Update Diagnosis of H.pylori and any emerging resistance to antibiotics
- Advances in Personalized intervention with molecular bases.
- There could be a link where you can see existing initiatives, as well as a way to contact those responsible.

Viewers from:

US, Canada, Mexico, Chile, Brazil, Guatemala, Equador, Peru, Dom Rep, Colombia, Cameroon, Morocco, Sudan, Australia, India, Saudi Arabia, Indonesia and Vietnam, Ireland, Germany, France, Italy, Greece, Kosovo, Belgium, Armenia, Lithuania, Turkey, Romania, Serbia and Hungary

98 registrations, 63 viewers live, 35 requested recording

Rating of overall webinar :

- 100 % voted 9-10 score

Appreciated most:

- Western data about GC
- All
- Presentario Constanza Camago
- Excellent PowerPoint slides-very informative
- Advances in molecular characterization of stomach cancer
- The topics are very relevant. And I think it is extremely important to know the initiatives and research projects that are being carried out.

Willing to join & take active part in H S I:

43% contacted H S I to become actively involved
others 57% happy to continue to follow H S I but can currently not join with active participation
